I am allowing Viktor Voros the permission to use some original artwork (to be sent via email) from the board game Clans of Caledonia in his Android scoring app for Clans of Caledonia as long as the app is not commercial and for free (and no advertising) and as long as I do not withdraw this permission. The app should also state that it is not affiliated by Karma Games and thus not an official app.

Thank you!

Kind regards,

Juma Al-JouJou
